Tyler's Pictures

Tyler likes to take pictures. His mother lets him 9
use her new camera if he is very careful. The 19
camera lets him look at the pictures right after he 29
takes them. If Tyler does not like a photo, he can 40
remove it. 42

Tyler enjoys taking nature pictures of all 49
creatures, large or small. Sometimes he can 56
capture the moment of an animal in motion. These 65
action pictures are great. Once he got a picture of 75
a bird with its wings out. 81

Of course, he must use caution. He never gets 90
too close to an animal that may sting or bite him. 101
Once he thought he was taking a picture of some 111
ladybugs. When he saw the photo, there was a 120
snake curled up under a plant. That's one reason 129
he must be careful. 133

Taking photos is what Tyler likes to do. He 142
keeps a collection of his pictures in a book. Now 152
and then he looks at them and thinks about his 162
future. 163
